

The deceit of M/s Idony Albert

In response to the inventive lies and extraordinary deceit being exhibited by the abovementioned person aka as **'Rachel Albert'** aka **'Idony Albert'** aka **'Idony Punahale Hoapili'** aka **'Princess Idony'**, the *Royal House of Kamakahelei* has been forced into issuing a statement in order to protect the integrity of this Royal House and the Hoapili Baker family.

'HRH Prince Darrick Baker is the current Head of the House of Kamakahelei. This position continues to have the blessing of the senior ranked males, as per male primogeniture, of the Hoapili Baker family.'

'Their Royal Highness's Prince Darrick and Princess Anna have worked tirelessly over the past six or more years to introduce the House to the international community and to bring honor to the memory of the ancestors. Their Highnesses have been received by many Royal Houses along with national & international cultural & academic organisations for their selfless work and dedication.'

Addressing the claims of M/S Idony

False claims by M/S Rachel 'Idony' Albert

- M/S Idony Albert is NOT the heir to the Hoapili Baker family nor is she the Head of the House of Kamakaheli. This role has always been one of male primogeniture.

(The claimed 'document of appointment' that was unlawfully published on her website is illegal; breaches Acts of privacy; contains a number of legal errors which include unwitnessed alterations and information deliberately changed in order to mislead the observer. N.B. Legal action is currently being undertaken against all parties involved)

- Her claim is based on her grandfather George Baker. Yet he is one of the youngest of the children of Ali'i Robert Hoapili III making his claim both insignificant and farcical.

- The blatant ignorance of primogeniture by Idony with claims of 'current' age being the reason for inheritance has nothing to do with the inheritance of this or any other Royal House. The sons and grandsons of George's older brothers being deceased or otherwise are higher ranked members of the family over George despite him being an older man. This is common international law of inheritance found in most Royal Houses including many of the Hawaiian Royal houses and especially this House.

(Note that Idony recognized male primogeniture through the history of the Baker family up until Ali'i Robert Hoapili III. Yet there was a sudden & convenient change in understanding the rules by them in order to accommodate the ambitions of this junior ranked family. N.B George's grandson Anthony Albert, Idony's brother, also out ranks her. Yet sadly due to certain 'antisocial' behaviour' and 'lifestyle decisions' affecting his health, he is believed to have been 'confined' by his mother.)

- In addition, with general primogeniture, an older sister and her offspring are higher ranked than other women in the family. And thus, put quite simply, George Baker and his descendants are lowly ranked within the family.

The illegal website

- The new website claiming to be the 'Royal House of Hawaii' is fraudulent and insulting to the ancestors and to the Hawaiian people. There is NO Royal House of Hawai'i in existence as no *Ali'i Moi* has been elected to that position by the Ali'i. And as Idony is a low ranking family member, she would not be eligible for election if it was ever held.

(There are Royal Houses in Hawai'i such as the House of Kawanakoa and Kamakahelei but no Royal House OF Hawai'i)

- the website also claims her father to be Gerard Anthony Luppino. This man was in fact her stepfather and he, along with Idony's mother Georgette Albert Luppino, were involved with the highly controversial Mauna Kea and Haleakala Observatories for many years.

The observatories are against the wishes of the Hawaiian people as it desecrates the sacred ground of the ancestors. Therefore, the roll that the Luppino's played in favour of the observatory is most significant and must be disclosed!

Full disclosure was requested by Idony of others regarding any legal matters whether they were public or private. Third party private information was illegally shared by Idony and her representatives in public forums. Thus, we invite full disclosure of her family matters and business dealings such as the following. Rachel 'Idony' Alberts' biological father is Anthony Mark Albert.

Public information discloses: an "Anthony Mark Albert was arrested for solicitation to commit murder in 2008 after trying to hire two hit men to kill the partner of his former wife... Hawaii in 2008"

Disrespect to the Hoapili Baker family

Self-aggrandizement, pompousness and claimed superiority by both Idony and her mother Georgette, was self evident in their attempted *coup d'etat* and theft of the headship of the House of Kamakahelei.

Up until around mid 2019, there was no interest expressed in the House

by them nor was there any offer forthcoming to assist those senior members in their endeavours to promote the Baker family. It was not until the success of the House became apparent, that they began to show interest as it would further their own personal ambitions first and foremost.

- Additionally, there is also written evidence of their continued pompous attitude towards the rest of the family with claims of mediocracy within the family and of the whole family being 'uneducated'. Idony and Georgette claimed their superiority over the rest of the family due to their personal business success. This is testament to their pompousness and disrespect of the very family that they now claim to represent.

Money does not buy integrity. Honor is found within the heart and can not be bought.

Humility and honor, an attribute that has always been expressed by HRH Prince Darrick is something that these two women have never shown.

Attempted coup d'etat

- Idony and Georgette along with the help of a small number of mutinous accomplices, had misled, lied to, threatened, coerced and secretly plotted to overthrow HRH Prince Darrick from his position. In fact while HRH Prince Darrick was in Spain, this group threatened his highness with abandonment both physically, leaving him in a foreign country and by way of withdrawing all support if he did not agree to their demands that Idony become the heir and within a short time, the Head of the House.

The International community are now fully aware of their dishonest and treacherous ways. Legal action is pending.

Idony and her followers are an absolute disgrace and an insult to the ancestors. Legal action continues.
